

Title of the event: National Science Day

Objective of the event: To enhance participants' knowledge, promote critical thinking, and encourage healthy competition. By fostering teamwork in group-based quizzes, these competitions also contribute to team building, communication skills, and the sharing of individual strengths. The engaging nature of quizzes serves as a motivating factor, promoting continued learning and curiosity. Additionally, participants develop various skills, including time management and decision-making, while the broad range of topics covered contributes to the enrichment of general knowledge. Quizzes provide a social platform for interaction and networking, creating an enjoyable learning experience. As a tool for assessment, quizzes gauge participants' understanding and progress, and the recognition of winners adds a celebratory element, fostering a sense of accomplishment among participants.

Report: The inter-university science quiz competition was conducted on the occasion of National Science Day, celebrated on February 26, 2024. There was a total of six teams participating in the competition: three from the different colleges of Guru Kashi University, one from Maharaja Ranjit Singh PTU, Bathinda, and one from Govt. Rajindra College, Bathinda. Dr. Pardeep Koura, Associate Dean Academics, was the chief guest for the activity. Dr. Genius Walia conducted the quiz. There were three rounds of the quiz.

Result of the quiz was as follows

1st : Guru Kashi University, Talwandi Sabo,

2nd: Maharaja Ranjit Singh PTU, Bathinda,

3rd : Govt. Rajindra College, Bathinda.

Dr. Pardeep Koura motivate all the participants and distribute the prizes. Dr. Sunita Rani gives the votes of thanks. Participants are provided with refreshments.

Outcome of the Activity: A number of significant results came from the Science Day quiz competition, including an improvement in competitors' scientific knowledge and critical thinking abilities. Through group-based quizzes, the event effectively promoted healthy competition among participants and teamwork. By gaining insightful knowledge about a range of scientific fields, participants helped to develop a scientific mindset. The test was a useful instrument for evaluating comprehension and memory retention, which promoted lifelong learning. In addition, the competition honored and acknowledged the participants' accomplishments, providing them with a feeling of pride and encouraging them to continue their scientific research and make contributions. All things considered, the Science Day quiz was very important in encouraging science education, curiosity, and a love of learning in addition to honoring scientific accomplishments.
