

Engineers day celebration

Engineer's Day was celebrated on 15th September, 2023 to present a comprehensive plan to honor and celebrate the engineering excellence within our institution. The objectives of the Engineers day celebration are as follows: Recognition of engineering excellence; Promotion of technical innovation and creativity; and Inspiration and motivation for future engineers. The main events include Techno Quiz Extravaganza –“Tech Know Your Minds”; Bridge Building Challenge – “Structural Strength”; and Engineering Showcase – “Inno Visions”. It brings us immense joy to hear that students thoroughly enjoyed the quiz competition, showcasing their knowledge and critical thinking skills. Their active engagement and competitive spirit added a vibrant energy to the event, making it a memorable experience for all involved. Faculty was delighted to know that students found the bridge-making competition to be an exciting and challenging experience. Their dedication and creativity in constructing sturdy bridges exemplify the innovative spirit that we strive to foster within our engineering community.
