

Department of Petroleum Engineering

Global Water Pollution and Crises for Sustainable Development

Department of Petroleum Engineering had organized an expert lecture on “” on 7th November, 2023. The expert lecture was delivered by Dr. Gulshan Kumar Jawa, Associate Professor, Department of Chemical Engineering, SLIET, Longowal. In this expert lecture, Dr. Jawa discussed global water pollution status, water scarcity, importance of water in today’s scenario, ways to achieve sustainable development goals of United Nation, need for public awareness and role of an individual in conservation of water resources. It is necessary to use 4R approach i.e., reduce, reuse, recycle and regenerate to reduce water pollution and achieve sustainable development goal.
